Education

Johnson State College
B.A. Gen. Music Studies/Theory

Johnson, VT
Aug. 2008-May 2012

Work Experience

Rock Art Brewery, LLC.

Morrisville, VT

Brewers Assistant

October 2017 - Current

Oversee all areas of cellaring, from tank cleaning/sanitization and preparation to transferring beer and dry hopping. Having a keen eye to cleaning and ensuring that all equipment is clean and sanitized is extremely important while making sure that all parts are secure and ready for any movement of beer. Lead a small production team on packaging days, where I delegate tasks that need to be done for a canning day. Help set up and interface with our customers at various festivals around the state, ensuring our presence as a quality driven producer of craft beer. Assist in the creation of small batch, experimental beers, exploring flavors and concepts.

South Burlington School District

S.Burlington, VT

Sous Chef

August 2016 - June 2017

Assist in month to month menu creation. Work closely with multiple coordinators across various schools within the district. Collaborate with district supervisor on the creation of new dishes while adhering to government nutritional guidelines. Prepare and serve up to 400 students on a daily basis. Plan and run various specials during service. Lead a small crew daily and oversee the sales after each service.

Shelburne Farms**Shelburne, VT***Prep Cook/Special Events Cook*

May 2016-October 2016

Maintain and oversee fresh produce and perishable goods, while keeping a mind to rotation. Prepare, process, large cuts, breaking them down into various specialty cuts for various services (Dinner, Special Events, etc..). Work alongside chefs to help create dishes for a nightly dinner service. Create multiple dishes for private events as well as cooking and serving previously prepared sides for multiple sized parties. Organize and run a 200+ community barbecue style dinner along with two other partners.

Keurig Green Mountain**Waterbury, VT***Machine Operator/WLS Safety Leader*

April 2013-February 2016

Worked in a fast paced, quality centered production environment. Created product with a keen eye to quality to ensure perfect delivery each day. Participated in various leadership/professional communication courses. Work as an operator on various machines throughout the packaging process. Due to my flexibility, I was able to fill any role as needed and learned any process with ease. Help assist in Coffee Processing, where whole beans are ground and updated to the database to be later accessed by shipping/receiving and production. Involved in safety projects to help better the company. Engage in reading past incidents and look for positive changes, help to make PPE have a positive effect. Work closely with many departments to help assist in projects around the production floor. Lead meetings by gather data from many sources and present them in an orderly and timely manner.

JP Morgan & Chase**Burlington, VT***Data Specialist*

July 2012-April 2013

While meeting daily metrics, processed documents containing vital, private customer data. Ensured quality of other employees work and corrected any related error. Participated in town hall meetings by gathering related data, organizing presentation schedule and shared important company information to various shifts. Held to high quality metrics, was reviewed on a weekly basis, meet and exceeded expectation.
